The notes look good to me.

Len,

Thanks for the memo/action items - however, I cannot comment on the accuracy of the contents even though memo is addressed to me. I would encourage those who did attend to make comment on these notes as appropriate.

I also cannot speak to the direction in the first paragraph about HQI investigating specific questions until I know the budget impact, if any. Please inform.

Likewise for the MPI action items - any budget impact?

Regards, Beth

Hello all:

The attached memo contains a summary of the discussion during the CSM

presentation (focused only on questions raised/observations/suggestions) and Malcolm Pirnie's data transfer actions. Regarding the USGS dredging pilot dataset, Juliana Atmadja is going to transfer the USGS database (hydrodynamics and chemistry) to Ed Garland today. Please contact me or Ed Garvey if you have any questions - take care,

Len
